SCHOOL business curriculum

ASBO is the statewide resource for professional development for school business professionals. It offers the Foundations of School Business Management with a curriculum of high quality courses for both the new and the experienced business professional and school based administrator that provides a strong foundation in school business operations.

These full day courses provide the opportunity to develop business and leadership skills through classroom instruction, discussion, and exercises in the following disciplines of school business:

School Finance

Pupil Transportation

Purchasing

Food and Nutrition Services

Information Technology

Facilities Management and Construction

Human Resources

Safety and Risk Management

Leadership

Future courses will explore decision making, management theory, and effective communication as ASBO develops the future business leaders of our school systems.
